

Full Stack Development for Beginners: Pre-Bootcamp Learning Path

To help you get the most out of the 18-Week Full Stack Development Bootcamp, we've curated a set of beginner-friendly resources on Codecademy. These resources are designed to help you build comfort with key web development and programming concepts before the bootcamp begins. They include interactive courses and hands-on projects/lessons that align with what you'll be learning in the program.

We recommend the following resources:

- Intro to HTML: <https://www.codecademy.com/learn/learn-html-fundamentals>
- Learn How to Code: <https://www.codecademy.com/learn/learn-how-to-code>

All these resources are available with a free Codecademy account — just click the links above or search on www.codecademy.com. Completing 3–5 hours of this prep material will ensure you hit the ground running when the bootcamp kicks off!
